Henry Wah
8545 Greer, and
Normandy Mo

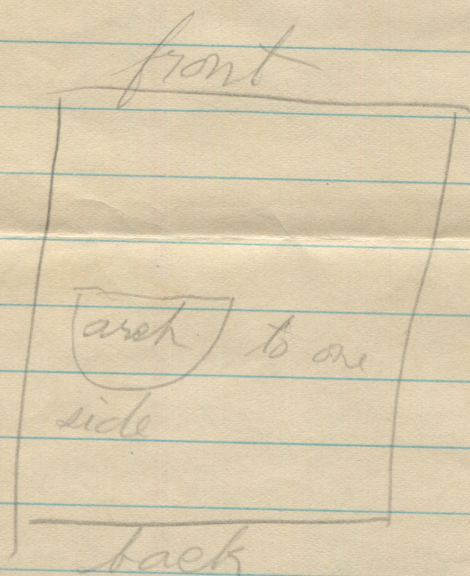

Dear Henry have not had
a letter for a few days not
since last Thursday I have
been sick since Thursday
but am up today some
hope things are going OK
there dont worry as we will
be there in time to get
the lumber bill fixed up
you may get a letter from
Alma but dont even answer
it as she is very selfish
now and dont pay any
attention to what she may
say we are satisfied and
that is all that counts
she thinks it foolish to
let the chance of the
pension go but the way

it is going there would
be no telling if we would
get it there was a lot
of W.P.A. workers laid
off and there was a piece
in the paper the other day
they would be taken care
of first and pension applications
would be held off another
extra 3 months that would
be about July before our
papers go to Columbus
perhaps not then where
would we be at our age
well if possible we may
leave here soon as we can
if the new rates come on
it may be after the 1st
as they are talking of
reducing the fare to $1\frac{1}{2}$
at a mile that would
save about 5 dollars fare

2

for each one I hope
things will turn out
OK and hope you are
~~not~~ putting yourself out
for us if you write dont
say anything about building
as she sure saved about it
she heard me read the
letter to papa and did she
save some well I will
close as ever with love Mother

if not to late will give
you an idea of the
floor plan I would
like other side

I thought arch would be better than a wall as one stove would heat both rooms better and having the arch on one side part of the kitchen could be made in a closet and like a bath room
